## Product Description

### Introduction

The European-style candy-colored simulated flower wall uses selected roses as the main body, showing a romantic European style. The European-style candy-colored simulated flower wall is an ideal choice to create a charming background and enhance the beauty of the space.

The colors of milky white, blue, candy color, milky white, and deep pink inject vitality and warmth into the space. The precise size of 40\*60CM and the lightweight design of 330 grams make it suitable for various occasions, including wedding photography, photo studios, home and store decoration. Online customization services meet individual needs and create unique styling walls for users.

|              |                                                     |
|--------------|-----------------------------------------------------|
| Style        | European                                            |

### Maintains

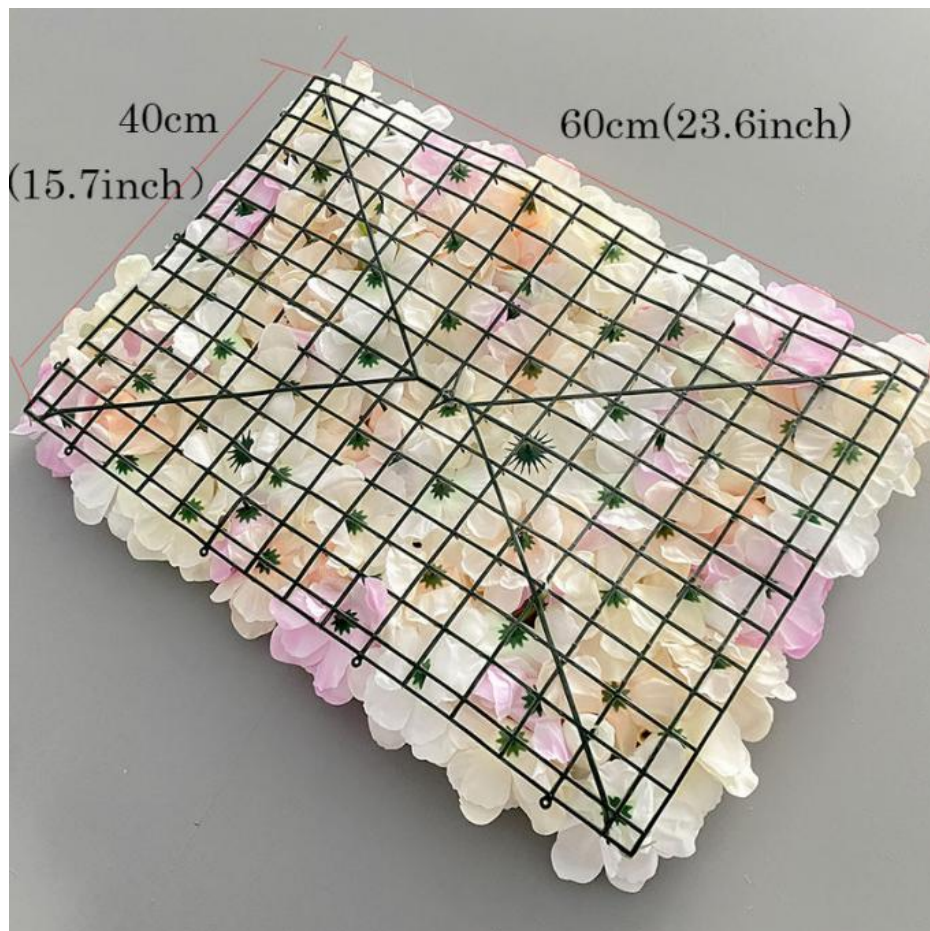

1. Avoid prolonged exposure to sunlight: To maintain the brightness of the color of the flower wall, avoid prolonged exposure to strong sunlight, especially when placed outdoors.
2. Clean the dust regularly: Use a soft brush or hair dryer to gently clean the dust on the surface of the flower wall to keep the flowers fresh and avoid dust accumulation that affects the appearance.
3. Beware of impact and squeezing: Avoid squeezing or hitting the flowers with heavy objects to avoid damaging the shape and appearance, ensuring that the flower wall remains beautiful for a long time.
4. Keep away from fire sources and high-temperature objects: Avoid placing the flower wall near fire sources or high-temperature objects to ensure safe use and prevent material damage.
