Product Description

Artificial silk gypsophila displays exceptional realism and exquisite craftsmanship, with a unique design that makes it indistinguishable from the real gypsophila. The durability and stability of artificial silk gypsophila make it an ideal choice for interior decoration, maintaining its bright appearance for a long time, regardless of seasonal and light changes. It has strong plasticity, adapts to various occasions, and injects life into the space. At the same time, compared with flowers, the environmentally friendly properties of realistic artificial gypsophila reduce waste generation and reflect the concept of sustainable development.

Realism: Artificial flower gypsophila has a realistic appearance that is difficult to distinguish from real gypsophila.

Persistence: Maintain the bright color and shape of petals for a long time, not affected by seasonal and environmental changes.

Plasticity: Adaptable to different decoration needs, high plasticity, easy to match various occasions.

Environmentally friendly features: Compared with flowers, no waste is produced and it is more environmentally friendly and sustainable.
